Motorcycle Brand Ural

Bil	Soalan	Maklum balas
1	Russian motorcycle brand Ural is set to be imported into Malaysia	This motorcycle issue has been discussed in the National Committee for Type Approval and Homologation (VTA) Meeting on 24 th March 2015. The meeting has decided that this motorcycle must undergo the Vehicle Type Approval (VTA) before it can be registered in Malaysia. The formal letter has been issued to the applicant on 30 th March 2015. Until now, there is no VTA application received from the applicant.
2	These motorcycles have sidecars	This motorcycle is allowed to be registered under body code 'Motosikal Sidecar Dengan Penumpang (MSP)' but subjected to the VTA approval.
3	According to importer, they have been requested to submit the motorcycle blueprints to JPJ, which has been done, and in return, an approval has already been given by JPJ that any full 'B' license can ride these bike	The applicant never submitted the VTA application to JPJ for the VTA approval. The formal letter issued on 30 th March 2015 is asking the applicant to submit the VTA application for approval consideration before it can be registered.

4	Based on current license practise, Commercial A & C , OKU sidecar license exists. Can these holders also ride the Ural sidecar?	OKU license holders only can drive the approved registered car that stated in OKU license. Thus, if the holders would like to ride the Ural sidecar, they need to get the approval from JPJ
